

Renee Good killing - public-record reconstruction

Build a provenance-first, non-graphic first-pass reconstruction of the January 7, 2026 fatal federal-agent shooting of Renee Good while preserving disputed intent, current uncharged investigative posture, source conflicts, rights limits, response chronology, and spatial uncertainty.

STATUS: WORKING / RESEARCH CUTOFF: 2026-07-17T14:30:00Z / SCHEMA: 2.0.0

This analysis is not a finding of guilt, certification, metric-validation statement, court-admissibility opinion, or public-release approval.

Executive summary

ESTABLISHED IN PACKAGE

Renee Good was fatally shot in her vehicle by ICE agent Jonathan Ross in Minneapolis on January 7, 2026.

ESTABLISHED IN PACKAGE

Official public records place the incident near East 34th Street and Portland Avenue in Minneapolis.

ESTABLISHED IN PACKAGE

ABC's synchronized public-video analysis places the first gunshot at approximately 9:37:13 a.m. CST and three audible reports within about 0.7 seconds.

ATTRIBUTED CLAIM

DHS alleged that Good weaponized her vehicle, tried to kill officers, committed domestic terrorism, and was shot in self-defense.

OPEN EVIDENCE NEED

What surveyed as-built control corresponds to the January 2026 street configuration?

OPEN EVIDENCE NEED

Do original files and device clocks confirm the absolute second and inter-shot intervals?

Method and evidence profile

INCLUSION RULE

Public records and specifically reviewed metadata-only fixtures relevant to the defined investigation scope.

EXCLUSION RULE

No crawler execution, authenticated access, raw third-party body retention, publication, or unsupported identity, guilt, trajectory, or metric inference.

SOURCE HIERARCHY

preserved primary evidence > official record >

published secondary	20	1 2

Chronology

NO.	SOURCE TIME	EVENT	SOURCE-BOUNDED DESCRIPTION
01	9:35:05 a.m. CST	Vehicle visible in diagonal position	Publisher synchronization shows Good's SUV partly across Portland Avenue while traffic could pass.
02	9:37:08 a.m. CST	Federal agents approach	Recordings show agents exit a federal vehicle and approach the driver's side with repeated directions to exit.
03	9:37:13 a.m. CST	Fatal shooting	Publisher analysis places three reports in under one second beginning at approximately 9:37:13 a.m.; trajectory and legal justification remain unresolved.
04	approximately three to five seconds after gunfire	Vehicle reaches nearby final-rest region	The SUV continues and crashes nearby within seconds of the gunfire.
05	approximately 9:40:08 a.m. CST	Bystander physician offers assistance	Synchronized reporting records a bystander identifying as a physician offering help.
06	approximately 9:43:14-9:43:34 a.m. CST	Municipal responders arrive	Public synchronization places the first municipal/fire responder at the vehicle roughly six minutes after the shots.
07	approximately 9:45:30-9:47:30 a.m. CST	Municipal resuscitation sequence	Published synchronization shows municipal lifesaving efforts; exact CPR-start terminology differs.

Chronology

NO.	SOURCE TIME	EVENT	SOURCE-BOUNDED DESCRIPTION
08	11:45:15 a.m. CST	Initial DHS account	DHS publishes claims of vehicle weaponization, attempted killing, domestic terrorism, and self-defense; these remain attributed.
09	January 23, 2026	Medical Examiner classification	Public ME data records multiple gunshot wounds and manner of death as homicide; this is not a legal culpability finding.
10	February 2, 2026	Formal state evidence demands	HCAO submits Touhy demands for federal evidence needed by the state investigation.
11	March 24, 2026	Evidence-access lawsuit filed	Minnesota, HCAO, and BCA file a federal action seeking access to evidence.
12	July 13, 2026	Federal evidence and vehicle transferred	State authorities announce receipt of hard drives and Good's vehicle and begin analysis without prejudice.
13	July 17, 2026	Research cutoff	No public state charge, declination, final independent use-of-force determination, or final DHS report was identified.

Contradiction register

Road obstruction terminology	EXPLAINED
Video analyses show partial diagonal obstruction while other vehicles passed; DHS characterized the vehicle as having been used to block the road. Both source expressions remain visible.	Different temporal slices Different operational and ordinary-language meanings of block Rhetorical compression in the initial account
Vehicle intent and weaponization	OPEN
Observed reverse/forward/right movement does not by itself establish the DHS allegations of deliberate weaponization or attempted killing.	Intentional escape Intentional assault Panic or steering error
Physical contact with agent	OPEN
The federal account invoked danger to officers; public views do not show a run-over and do not conclusively resolve brief contact or injury.	No contact Brief upper-body contact Contact not visible in compressed views
Agent position during firing	OPEN
Independent analyses place Ross near the front-left and increasingly alongside; the public record cannot recover a complete body pose or legal perception from that topology alone.	View-dependent occlusion Rapid relative movement Different reference points for front versus side
Federal and state investigative posture	EXPLAINED
DOJ reportedly did not open a federal civil-rights investigation while the state investigation continued after federal evidence access was curtailed.	Different sovereign investigative authority Different offense and review scopes
Evidence access over time	SUPERSEDED
The state moved from curtailed access, to formal demands and litigation, to receipt of hard drives and the vehicle. The July transfer does not prove every requested item was produced.	Substantial but incomplete production Staged exchange Remaining dispute over inventory or access terms
Medical response timing and treatment	OPEN

Public synchronizations broadly align on delayed visible municipal resuscitation but vary on exact CPR-start labeling; outcome causation remains unproved.

Different visibility thresholds
Different clinical-action definitions
Clock offset between records and recordings

Medical homicide versus legal culpability

EXPLAINED

The Medical Examiner's homicide classification records death caused by another person; it does not answer murder, criminal liability, or justification.

Medical and legal classifications answer different questions
